

Studio 3 Discover — V1 Feature List

(Storytelling-Led Discovery with Integrated Marketplace)

Project Overview

Studio 3 Discover is a creator-led discovery platform where artists share finished artworks and creative process, and collectors can meaningfully discover and acquire art.

The platform prioritizes:

- Artistic storytelling
- Creative process
- Calm, intentional discovery
- Direct artist–collector connection
- Selective commerce integration
- Healthy, low-pressure interaction

Studio 3 is not a traditional social network.

It is a creative ecosystem focused on art, narrative, and acquisition.

Core User Types

1) Artists

- Upload finished artworks (Pieces)
- Share process and studio content (Posts)

- Sell selected artworks
 - Build a portfolio
 - Tell their story flexibly
 - Receive appreciation & feedback
-

2) Collectors

- Discover and acquire art
 - Save artworks and process content
 - Follow artists
 - Build collections
 - Ask questions via comments/inquiries
-

3) Enthusiasts

- Browse and discover art
 - Save inspirational works
 - Follow artists
 - Engage through appreciation and comments
-

Core Content Types

1) Pieces (Finished Art)

A Piece represents a completed artwork.

Used for:

- Selling
 - Portfolio display
 - Collecting
 - Optional storytelling
-

Piece Fields

Required

- Title
- Media (image or video)

If For Sale

- Price
- Medium/materials
- Dimensions
- Shipping region

Optional

- Year
- Story/intent

- Process notes

Storytelling is optional, never required.

Piece Capabilities

- Saveable
 - Likeable
 - Commentable
 - Purchasable
 - Inquiry-enabled
 - Linkable to Posts
 - Appear in collections
-

2) Posts (Process & Expression)

Posts are lightweight creative updates.

Examples

- Work-in-progress
- Studio moments
- Material tests
- Detail shots
- Concept exploration

Post Fields

Required

- Media (image or video)

Optional

- Caption
- Link to a Piece

Posts cannot be sold.

Post Capabilities

- Saveable
 - Likeable
 - Commentable
 - Linkable to Pieces
-

3) Piece ↔ Post Linking

Optional linking system.

Posts can link to a related Piece.

On Piece pages:

Related Process section displays linked Posts.

This allows storytelling to build naturally.

Discovery System

1) For You (Personalized Feed)

Content Mix

- ~70% Pieces
- ~30% Posts
(adaptive to behavior)

Ranking Signals

- Saves (primary signal)
- Time spent on Pieces
- Follows
- Story/process depth
- Onboarding preferences
- Light recency
- Likes (light signal)

Likes are NOT a primary ranking factor.

Feed Experience

- Large visuals
 - Calm scroll
 - Tap-to-play video
 - No autoplay
 - No public metrics
-

2) Explore (Open Discovery)

Mixed feed of Pieces and Posts.

Designed for open-ended browsing.

Filters

- Medium
- Style
- Theme
- Available for Purchase

No trending or popularity sorting.

Curated Sections

- Studio 3 Picks
- Process Spotlight

- New Voices
 - Collector Favorites
-

User Profiles

Unified profile system.

Profile Structure

Header:

- Name
- Bio
- Location (optional)
- Follow button

Tabs:

- Pieces
 - Process
-

Save & Collections System

Primary engagement mechanism.

Users Can

- Save Pieces
 - Save Posts
 - Create collections
-

Signal Weighting

Saving Pieces = strong signal

Saving Posts = lighter signal

No public save counts.

Like System

Lightweight appreciation tool.

Rules

- Users can like Pieces and Posts
- Like counts are **private to the artist**
- Public does NOT see like totals
- Likes are a weak ranking signal

Purpose = appreciation, not competition.

Comment System

Supports dialogue and storytelling.

Rules

- Comments allowed on Pieces and Posts
- No public comment counts in feeds
- Visible only on detail pages
- Artists can:
 - Disable comments
 - Delete comments
 - Block users

Designed for thoughtful interaction.

Follow System

Rules

- Private follower counts
- Artists see follower list privately
- Used for personalization
- Optional alerts for new Pieces

No gamification.

Structured Inquiries

For Pieces only.

“Inquire About This Piece”

- Piece reference auto-attached
- Structured form
- Optional message

No open DMs in V1.

Purchase Flow

Only for sellable Pieces.

Flow

Piece → Purchase → Checkout → Confirmation

V1 Constraints

- Single-item purchase
- Basic shipping input
- No cart

- No auctions
 - No BNPL
-

Video Support

Allowed in Pieces and Posts.

Constraints

- Short-form preferred (15–60s)
 - Tap-to-play
 - No autoplay
 - No view counts
-

Notifications (Basic)

Users receive notifications for:

- Someone liked your Piece/Post
- Someone commented
- New follower
- Inquiry received
- Purchase confirmation

- New Piece from followed artist
-

Avoided Notifications

- Performance alerts
 - Engagement streaks
 - “Trending” notices
-

Trust & Safety (Core Only)

- Secure payments
 - Reporting/blocking
 - Basic moderation tools
 - SSL encryption
-

Excluded from V1

- Stories
- Reels
- Auctions
- Livestreaming
- Advanced analytics

- Trending systems
 - Gamification
 - Premium subscriptions
 - AR features
 - Multi-item carts
-

Success Metrics (V1)

Focus on:

- Saves per user
- Time spent on Pieces
- Comment quality
- Purchase conversion
- Artist retention
- Collector retention
- Time to first sale

Not vanity metrics.
